

Pro-Balance 14-0-14

14-0-14 Pro-Balance with 50% SRN is produced from high quality technical and food grade raw materials. 14-0-14 is safe for both turf and horticultural applications, and is a reliable source of both N and K. 14-0-14 contains soluble, readily available potassium for immediate plant uptake to maintain sufficient potassium levels. Nutrients are absorbed both through the leaves and roots. Potassium improves the stand of stalk and increases disease tolerance. 14-0-14 provides an optimal 1 to 1 ratio of N and K which is important when turf cannot use high levels of Phosphorus. No special agitation is required. 14-0-14 does not contain chlorides which can cause salt buildup. Potassium is known to improve winter hardiness of turf grass. University research indicates the importance of maintaining good potassium levels as it relates to drought tolerance.

Produced by:
Paragon Professional Products
 3635 Knight Rd. #7 • Memphis, TN 38118

- With 50% Slow Release Nitrogen Plus Micronutrients
- Equal Nitrogen/ Potassium Ratio
- Requires No Mixing or Agitation

14-0-14 PRO-BALANCE

WITH MICRONUTRIENTS

GUARANTEED ANALYSIS:

Total Nitrogen (N)	14.0%
7.0% Urea Nitrogen	
7.0% Other water soluble Nitrogen *	
Soluble Potash (K ₂ O)	14.0%
Copper (Cu)	0.1%
0.1% Chelated Copper	
Iron (Fe)	0.1%
0.1% Chelated Iron	
Managnese (Mn)	0.1%
0.1% Chelated Manganese	
Zinc (Zn)	0.1%
0.1% Chelated Zinc	

Derived From: Urea-Triazone, Potassium Acetate, Iron EDTA, Copper EDTA, Manganese EDTA, Zinc EDTA

* Contains 7.0% Slowly Available Nitrogen from Urea Triazone

Foliar Turf Applications		
Application	Rate / 1,000 FT ² (100 m ²)	Frequency
Tees & Greens	7 - 10 oz (244 - 305 ml)	Every 7-14 days
Fairways & Roughs	19 - 25 oz (610 - 733 ml)	Apply Monthly
Sports Turf & Sod	19 - 25 oz (610 - 733 ml)	Apply Monthly
Lawn Care	38 oz (1.2 L)	Apply every 6-8 weeks

Greenhouse & Nursery Injection Ratio		
1:100	100 PPM N	4.5 oz per gal water (133 ml)
